

practice will further detail for Members the manner in which allocation occurs in the System. The Exchange's proposal is not intended to change the Exchange's allocation methodology, rather the Exchange is proposing to make clear the manner in which allocation is structured within the System. Further the Exchange's proposal to describe the manner in which orders are allocated to various types of market participants by category of participant and the possible outcomes if multiple allocations apply is consistent with the Act because understanding the potential outcomes protects investors and the public interest by increasing transparency. The Exchange's proposal to relocate current rule text into the current rule and provide additional detail including limitations for Preferred Market Maker participation entitlements during the Opening Process and limitations on allocations of Orders of 5 Contracts or Fewer during the Opening Process and auctions will increase transparency for the protection of investors and the public interest. These limitations exist today. Finally, the Exchange believes that including all potential scenarios for allocation Orders of 5 Contracts or Fewer more clearly explains the Exchange's current allocation process. The Exchange believes that providing more detail benefits investors and the public interest. The Exchange's proposal to amend Options 3, Section 3 to remove obsolete language and amend the title of Options 6, Section 1 will bring additional clarity to the Rule.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange's proposal does not amend the current manner in which the Exchange allocates interest among market participants. The amendments to the rule reflect the manner in which the current System operates. The Exchange notes that Priority Customers will continue to be afforded certain allocation rights which are not available to other market participants. This is the case today. Primary Market Makers and Preferred Market Makers will continue to be afforded certain entitlements because of the continuing obligations they are bound to with respect to provide liquidity and quoting on the Exchange.²⁶ The Exchange notes that other market participants will continue

to be allocated in the same manner as they are today on a Size Pro-Rata basis after other entitlements have been allocated. The Exchange believes the proposed rule provides more detail and offers more transparency into the allocation process.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act²⁷ and subparagraph (f)(6) of Rule 19b-4 thereunder.²⁸

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
